

## Staff Information Governance Awareness Survey

Awareness Question	Strongly Agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree	Don't know
I feel data security and protection are important for my organisation.						
I know the rules about who I share data with and how.						
I know who to ask questions about data security in my organisation.						
I am happy data is used legally and securely in my organisation.						
I know how to use and transmit data securely.						
I feel that confidentiality is more important than sharing information for care						
The tools and processes used by my organisation make it easy to use and transmit data securely.						
I can raise concerns about unsecure or unlawful uses of data, and I know that these will be acted on without personal recrimination.						
I understand the important laws and principles on data sharing, and when I should and should not share data.						
If I have a question about sharing data lawfully and securely I know where to seek help.						
I take personal responsibility for handling data securely.						
The data security training offered by my organisation supports me in understanding how to use data lawfully and securely.						
The level of access I have to IT systems holding sensitive information, is appropriate.						
I know how to report a data security breach.						
When there is a data security incident my organisation works quickly to address it.						
When there is a data security incident, or near miss, my organisation learns lessons and makes changes to prevent it happening again.						
If a data security incident was to prevent technology from working in my organisation, I know how to continue doing the critical parts of my job.
