

## Travel Vaccination Service

We recommend booking your travel health appointment at least 6 weeks before you travel, as some vaccines need to be given well in advance and may require more than one dose.

Before your appointment, you will be asked to complete a pre-travel health questionnaire. This helps the practice nurse assess your individual travel risks and determine which vaccinations and advice you may need.

Please note: Some travel vaccinations are not available on the NHS. Certain private vaccines may require more than one dose and will need to be arranged privately.

For further information or to request a questionnaire, please contact the practice.

You may wish to visit the website [www.travelhealthpro.org.uk](http://www.travelhealthpro.org.uk) or [www.fitfortravel.nhs.uk](http://www.fitfortravel.nhs.uk) for further information.
